PRINTING + BRANDED PRODUCTS

At Prospekt, we take a personal approach to print. We work with you to understand what you need, develop the right solution and deliver a finished product you're proud to put your name on.

With experience across graphic design, marketing and print, we can help with everything from creative ideas and artwork through to production and delivery. From business cards and brochures to promotional products and branded materials, we make it easy to bring your brand into the real world.

We also believe in making more considered choices where we can. We use FSC-certified paper stocks from responsible sources and support paper and toner recycling initiatives throughout our production process.

For us, it's about more than producing a product. It's about understanding your business, your brand and what you're trying to achieve — and helping bring it to life through print.

Good ideas deserve good print.

IDEAS TO HELP GROW YOUR BUSINESS WITH PRINT

We have put together a collection of our products and services to help grow your business with print. Various options are available to better understand how to use printing to complement your other marketing techniques in order to boost your business.

INDEX

A-Z of Digital Print	1-16
Promotional Products	17-18
Indoor & Outdoor Signage	19-26
Events & Functions	27-28

CREATIVE DESIGN

A great design communicates what your business is, what it does and why customers should choose you. Our designers take the time to understand and assist you with everything from a logo design to high-end brochure.

Collecting ideas and designs you like is the first step in helping us bring your vision to life. We can build you a company image that is professional and stylish.

DIGITAL PRINTING

Digital Printing has come a long way in only a few short years; the colour and quality that printers now produce is outstanding. With new advances in digital technology changing every day, we'll keep you up to date.

Digital printing makes small jobs quicker, easier and more economical. No longer do you need to order thousands of business cards or flyers to make your printing cost-effective. Creating personalised promotional marketing pieces that generate greater impact and produce higher response rates is one of the main advantages in using digital printing.

VARIABLE DATA

With Variable Data printing we can customize your marketing specifically to your individual customers. A spreadsheet of names and addresses is used to personalise each letter or envelope you send out.

Variable Data Numbering can also be added during the printing process to include serial numbers on your gift vouchers, event tickets, raffle tickets and more. When paired with our perforation process this allows you to retain a ticket stub and track how many people will be attending your event or how many new customers your gift voucher promotion attracts.

FINISHING OPTIONS

SCODIX is a clear high gloss coating that gives a raised tactile feeling to the print. Also available in metallic silver, gold and rose gold finish.

SPOT UV highlights a specific area of the image by applying a high gloss coating.

LAMINATING adds a gloss, matt or velvet coating that protects & enhances your job.

WIRO BINDING is a binding process that allows a finished booklet to be opened completely flat.

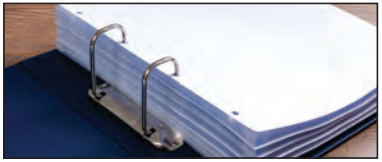

PERFECT BINDING turns your document into a soft-cover book with pages glued into the spine.

SADDLE STITCHING is a folding/ stapling process most commonly used for booklets and magazines.

PADDING involves gluing one edge of a pad to allow pages to be torn off individually.

DRILLING is used to hole punch documents that will be inserted into standard 2, 3 or 4-ring binders.

FOIL STAMPING is a process which presses metallic foil into the page in the shape of your design.

BUSINESS CARDS

We all notice great looking Business Cards which are a great branding opportunity. Even if you sell online, it makes good sense to include your card with every sale delivery.

SUGGESTED STOCK

- 350-450gsm Artboard

FINISHING & OPTIONS

- Gloss or Matt Laminate
- Unlaminated
- New Velvet Laminate
- Scodix Raised Print

CANVAS PRINTS

Canvas Prints can feature any design you like, from personal photos & artwork or even famous quotes.

FEATURES & OPTIONS

- Print Only
- No Framing or Stretching

FLOOR GRAPHICS

Internal Floor Graphics work well to direct people to promotional areas in shops and at exhibitions. Durable solvent inks which stand up to high volumes of traffic on low tack vinyl make for ideal installation and removal.

FEATURES & OPTIONS

- Cut to Shape
- Easy to apply
- Non Slip Laminate
- Print 1 side only
- For Use on Both Hard Surfaces & Carpet

FOAMBOARD

Popular for internal signage such as lecturns, welcome signs, displays and selfie frames at events. Foamboard can also be die cut into bespoke shapes to suit whatever you need.

FEATURES & OPTIONS

- 5mm & 10mm Thickness
- Cut to Custom Shapes

SHELF EDGE STRIPS & SHELF WOBBLERS

Shelf Edge Strips provide opportunities for retailers who utilise a shelving system for product display. Testing is now much easier as you can order strips for a single shelf to see what works best, without having to bulk purchase.

Shelf Wobblers are designed to attract attention to items on display. Printed single sided, they can be square cut or die cut to shape.

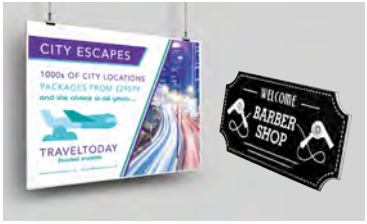

SUGGESTED STOCK

- 250gsm Coated

FINISHING & OPTIONS

- Gloss or Matte Laminate
- Cut to Shape

DISPLAY BOARDS

Display Boards are generally printed double sided. Boards can be die cut to add interest and draw attention. Display Boards are cost effective where higher volumes are needed.

FEATURES & OPTIONS

- Indoor & Outdoor
- 3.5 & 10mm Thickness
- Cut to Shape

BRAILLE SIGNS

Make your business or organisation more accessible to a wider range of people with a custom printed Braille sign that meets the criteria set by the Australian Braille Authority.

These robust signs are ideal for both indoor and outdoor use and can be manufactured using the latest techniques with a range of different metallic finishes available.

FEATURES & OPTIONS

- Stainless Steel
- Aluminium
- Self-Adhesive Backing

BUMPER STICKERS

Ideal for advertising a message or promoting your business on your vehicle. These stickers are printed on a sturdy weatherproof vinyl adhesive stock with UV resistant inks to ensure they last for years.

FEATURES & OPTIONS

- Gloss or Matt Lamination
- Cut to Shape

ACRYLIC DISPLAY SIGNS

The rigid printed graphics help to promote the products or as a business entry statement. They are designed for indoor use and are particularly popular in car showrooms and other 'big ticket item' sales rooms.

FEATURES & OPTIONS

- Cut to Shape
- Mounting Lugs & Screws
- Drilling for Mounting

MAGNETIC VEHICLE SIGNS

Magnetic Removable Vehicle Signs give you the best of both worlds - free to promote when you are on business, and a vehicle free from signage when you are not. A great alternative to permanent signwriting or vinyl.

FEATURES & OPTIONS

- Cut to Shape
